Overall Concept:

- It is a Boy Scout Winter Skills event, that includes training and competition.
- The Klondike Relay is a team competition, where Scout Patrols compete against each other.
- Boys are divided into patrols of 8, and each patrol uses a boy built Dog sled pulled by boys instead of dogs.
- The Scouts pull the sleds, loaded with their personal and patrol equipment, journey through the woods and fields to 5 training stations, where they are trained on different winter skills.
- At the end of the day we have the traditional Klondike Derby Race, lake side.

Klondike Derby Relay Race Sled Requirements

Sleds must be built *this Scouting year* using Scout Skills.

They can be built out of anything you wish, use your imagination.

One Scout must ride the sled.

Each sled must carry the following items:

First Aid Kit, Patrol Flag, Matches for the Fire Station, Scout Book, Pen, Paper and a Blanket

- Scouts will have to navigate themselves and their sleds to and from each activity station.
- When they arrive at these stations they are timed and tested on their Scouting knowledge, their team work and their problem solving skills.
