

KOTA 1

High Adventure

Winter Camping at its BEST!
*** Experienced Winter Campers only***

This is only for experienced winter campers; Scouts who can handle two nights of camping at Parker Scout Reservation, with nothing more than their gear.

Requirements: the commitment to spend the weekend in the elements, the desire to stretch your limits; cross country skiing, snow shoeing, shot guns and sleeping under the stars.

Upon arrival, your unit will check in at the administration building where you will be assigned to a Kota crew. Your crews will then pack up, and head to your campsite and prepare the shelters. A cracker-barrel and campfire will close out the evening's activities.

Saturday morning will start out early with a hearty breakfast followed by challenging activity stations and instructional learning.

Take a break from the morning activities to relax and prepare your noon meal, out doors.

The afternoon will again hold outdoor activities to keep you warm and engaged. Shot gun, cross country skiing, snow shoeing just to name a few.

By sunset, your crew will prepare a hot supper followed by a chapel service, campfire, skits and evening cracker-barrel under the star-speckled sky.

After a good night's sleep, you'll be ready to pack your gear and prepare breakfast before heading home. Soon the weekend will come to an end, but memories of your Winter Camping Weekend will last forever.
